POOL AND SPA CONSENT

PATIENT NAME _____

MEDICAL SCREEN:

Precautions - Pregnant women, elderly persons with any heart disease, diabetes, high or low blood pressure should not enter the whirlpool without prior medical consultation and written permission from their Doctor.

No Exceptions - No person may enter the pool or whirlpool if suffering with any of the following; bowel or bladder incontinence, open, bleeding, or draining wounds, or any communicable disease.

Observe the 15 minute time limit in the whirlpool. Long exposure may result in nausea, dizziness, or fainting. Enter and exit slowly.

Showering - Prior to entering the pool or whirlpool, each patient must shower and must be attired in appropriate swimwear. Please limit your shower time before and after your appointment as other people need to use the facilities. Please avoid the use of baby powder and other substances that can spill on the floor and pose a safety risk, as well as unsightly conditions. Please pick up after yourself and place all clothing and other articles in a locker. **DO NOT** leave them in a changing room, on the floor, in the bathroom stall, or on the bench as other patients will be utilizing those areas.

I have consented to all of the above.
